

# 2022.12.9 FRI ASIA SYMPOSIUM

on Social Implementation through  
the Asian Research Network  
under the COVID-19 Pandemic:  
From Research to Practice

Japan Agency for Medical Research and Development (AMED) promotes integrated research and development in the field of medicine, from basic research to clinical trials.

For this symposium, we are inviting various researchers who have been working internationally with Asian countries supported by AMED as well as researchers from industry sectors and policy makers. This symposium aims to promote infectious disease research in Asian countries towards social implementation by sharing knowledge, experiences, and ideas, especially under the COVID-19 pandemic. The goal is to expand the infectious disease research network in Asia.
